Source: Census ACS  
2015-2019 and Pre-  
Regs through 01.31.

Note: this map looks at the difference between the number of pre-registrations from 75+ residents and the total population in that age group for each census tracts. Tracts in gray have more 75+ pre-registrations than 75+ residents. Tracts in red have fewer. By using simple subtraction, this map highlights neighborhoods with the biggest absolute gap.

# PRE-REGS (75+): GEOGRAPHY—OVER/UNDER-REPRESENTED TRACTS

**75+ PRE-REGS.  
AS SHARE  
OF CENSUS POP  
ESTIMATES**

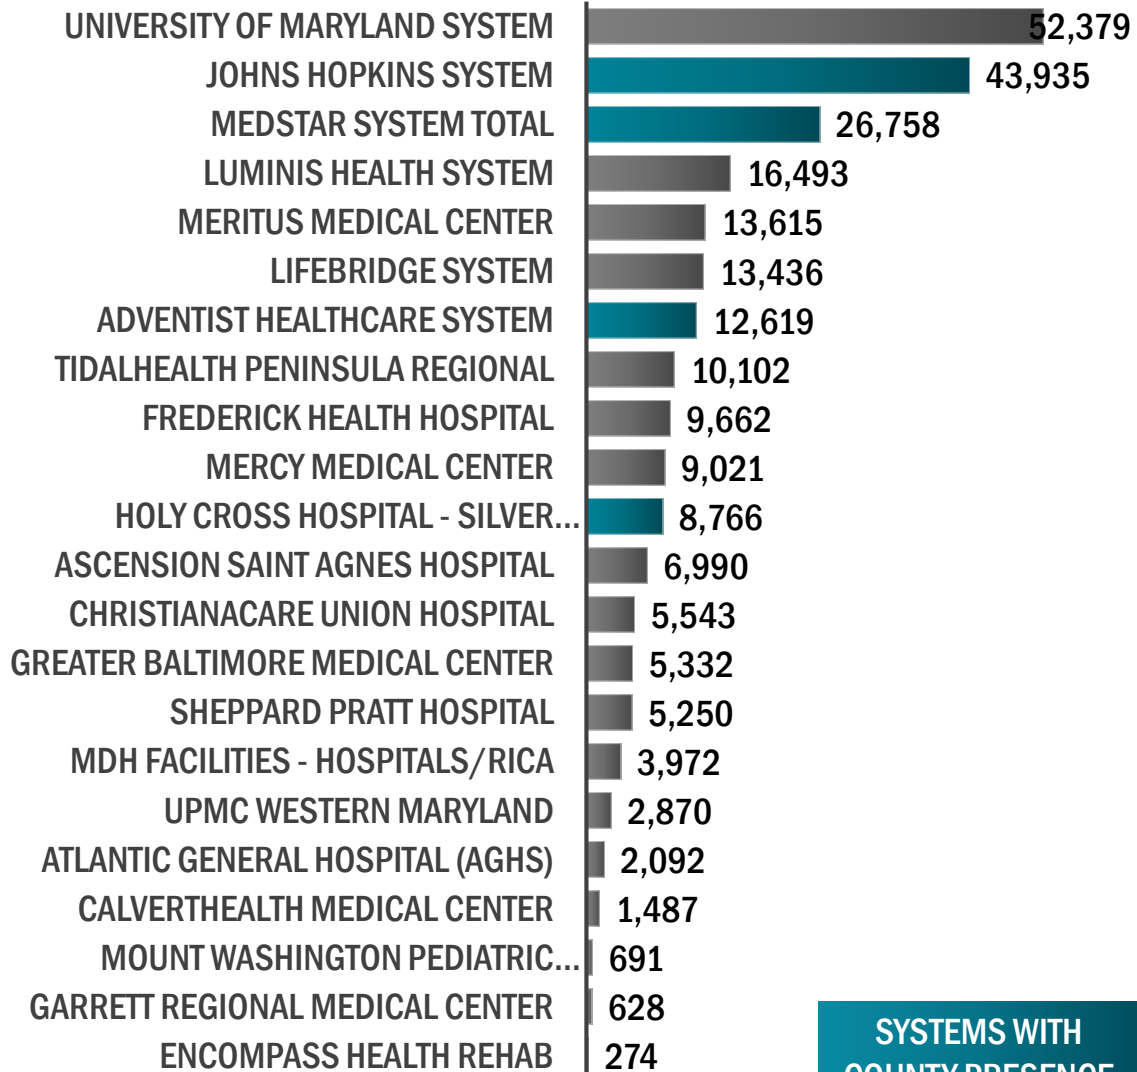

Source: Census ACS  
2015-2019 and Pre-  
Regs through 01.31.

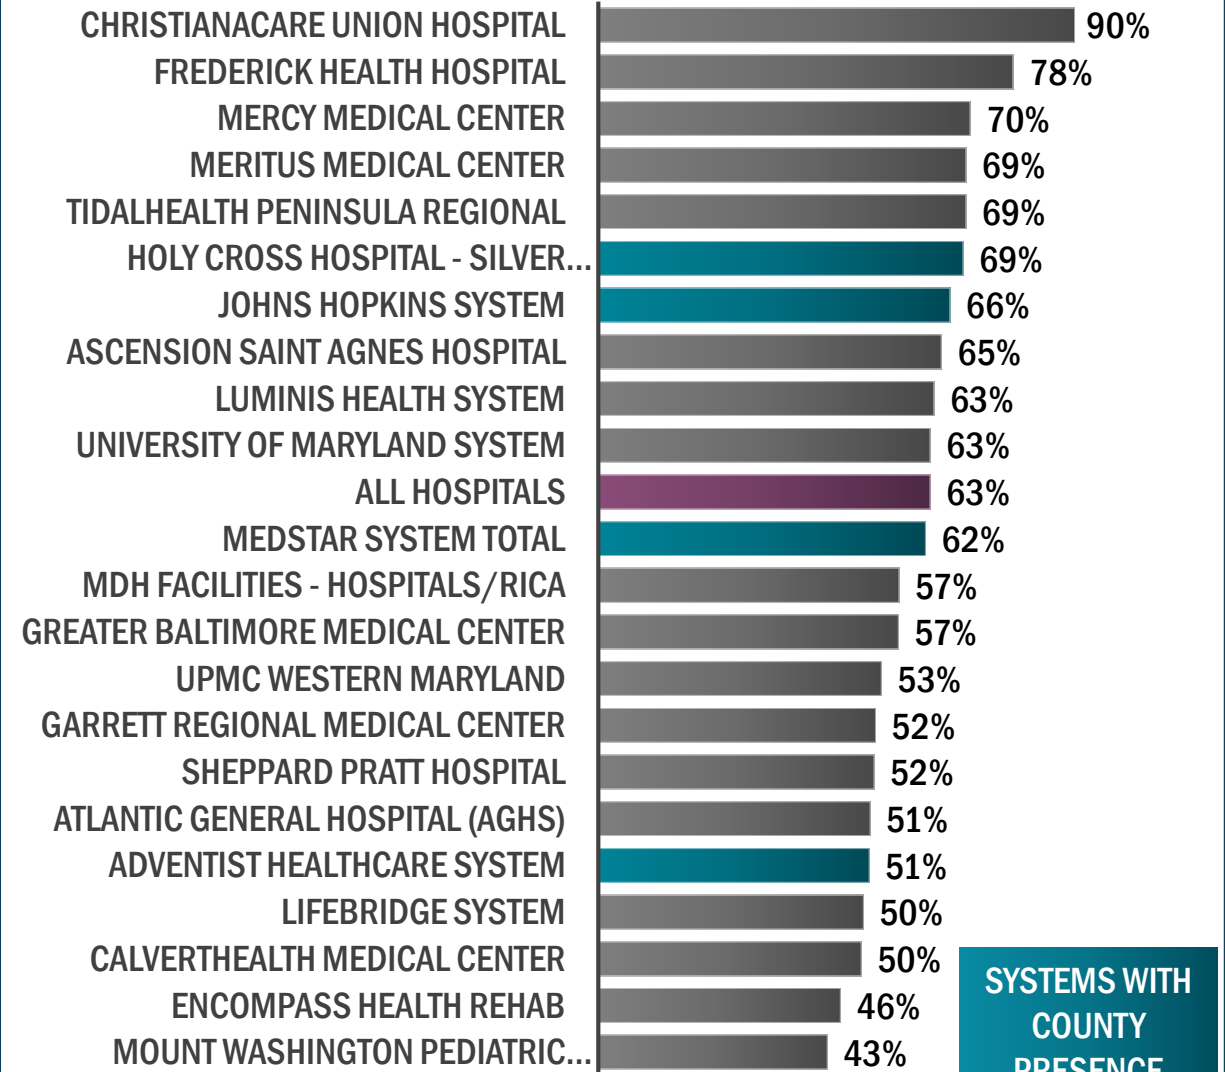

Note: this map looks at the number of 75+ pre-registrations as a share of the total 75+ population for each census tracts. Tracts in gray have a ratio over 100%. Those in red have a ratio below 100%. By looking at the relative share, this map highlights the tracts that have the lowest relative share of their population pre-registered (rather than the largest absolute gaps).
